

# Mary Magdalene

After the success of Victoria and Abdul, Mothers' Union has again worked with Damaris Media and produced a brilliant companion booklet for the film Mary Magdalene.

The film is focused on the life of Mary, a young woman who becomes a follower of Jesus - defying the culture of the time. The film raises important issues of gender equality and challenges how Mary has often been portrayed. This resonates with much of the work Mothers' Union currently do to combat gender-based violence and discrimination around the world.
